

Director of Central Intelligence

Washington, D. C. 20505

12 January 1984

NOTE FOR:

STAT

FROM: DCI

Could you add to the list of results in my report to the President the list of estimates which can be appended to the report & a list of the major analytical products of the last three years over and above the estimates. I don't want anybody to go through the 2,000 or so that have been done. I want them to search their memories to pull out those which plowed new territory, were otherwise innovative, tackled critical threats or problems, etc.

William J. Casey
